MAUA BANK,
101—103 CALLE CANGALLO

The Offices of this Bank having been removed to the above spacious building, in order to suit the increasing flow of business, the public is informed that the following transactions are carried on in currency and specie in this Bank:—

First.—Bills and obligations with good signatures are discounted on conventional terms.

Second—Money is advanced on mercantile and other securities approved of by the Manager.

Third—Accounts current are opened with Merchants or other parties who may prefer depositing endorsed and transferable securities, against which they may draw up to an amount previously convened under conditions established for such class of operations.

Fourth—Money is received in account current bearing interest from day of deposit, which is accumulated in favor of the parties every three months, the depositors being allowed to retire at any time, by means of checques, part or the full amount at their wish, save when the quantity exceeds three hundred doubloons or one hundred thousand dollars currency in which case forty-eight hours previous notice is required to begiven to the Treasury of the Bank.

Fifth—Bills or letters of credit are drawn and taken on Montevideo, Rosario, Sta Fé, Salto Oriental, Payssandu, Rio Janeiro, and other places in the Brazils, England and France, as also on other places, of which notice will be given hereafter.

Finally, the Bank undertakes and executes all legitimate transactions within the orbit of banking operations.

The establishment is always open from 10 a.m till 3 p.m.

MIXTURA PARA TERCIANAS
DE JAYNE,
A CERTAIN AND EFFECTUAL REMEDY
For Fever and Ague, Intermittent and Remittent Fevers, &c.

This class of diseases, so common in all part of the world, and specially prevalent in malerious districts and vicinage of water courses, are almost invariably accompanied by more or less derangement of the liver, and frequently by a defective action of the digestive organs.

The more breaking of the Chill is but a step towards completing a radical cure. The various organs of the body, especially the stomach and liver, must be brought to a healthy and vigorous condition before a permanent cure can be established, and this fact has been specially kept in view by Dr. Jayne in his treatment of these complaints. The use of Jayne's Ague Mixture in conjunction with the Sanative Pills, as prescribed in the directions which accompany each bottle, will not only

Break up the Chills,

But restore the system more particularly the liver and stomach, to a sound condition, and so prevent a relapse of Fever and Ague, by thoroughly

Eradicating the Disease,

And the best evidence of this is the invariable success which has always followed the administration of these remedies, as attested by the certificates published annually in Dr. Jayne's Almanac, and the wide-spread popularity of the Ague Mixture in those districts of the United States, where these diseases, for which it is adapted, most prevail.

All Dr. D. Jayne's Family Medicines are prepared only at 242 Chestnut-street, Philadelphia, and are sold by Druggists everywhere.

THE TRUE
THEORY OF PURGATION,
Applied to the
Liver, Kidneys, Skin, Stomach, and Bowels.

DR. RADWAY'S
Perfect
PURGATIVE PILLS,
Perfectly tasteless—Elegantly Coated.

'Materia Medica' contains, in its repertoire, many purgative and cathartic agents that, for ordinary purposes, opens the bowels, and through what is called a 'perisaltic' movement, purges from the alimentory canal the fæces, and this is all. Such agents, for the purpose of cure, or removal of any settled cure, are perfectly useless.

Dr. Radway has completed one of the most essential discoveries in medical chemistry—in the combination of vegetable substances, for the purpose of a Purgative, Aperiant, Counter-Irritant, Alterative Pill, that can be taken or administered with the absolute certainty of securing thorough expulsion of all decayed and decomposing element of the human body, and also safe to take in the most malignant of Eruptive Fevers. In cases where the mucuous membranes of the internal viscera are suffering from Ulceration, Inflammation, or from

LIVER
Gastric, Biliary, Pancreatic Complaints,

Dr. RADWAY'S PILLS
Supply the only Vegetable substitute for CALOMEL OR MERCURA.

In Radway's Pills you have one medicine that will secure quicker, more thorough and better results than will be given in from three or more different prescriptions of the Medical practitioner. As a proof of this—You are seized with a bilious attack! Doctor prescribes blue pills or calomel. Next, come drastic aloetic pill or powders, to work off the effects of the blue pills this prostrates you, and a tonic is next given, to a gentle aperiant, whereas one dose of Radway's Pills will do all the work that the three or more prescriptions are given for, without running any risk from mecurialising or salivating the system.

Radway's Pills.

In Radway's Pills the true principle of purgation is secured—not alone to the office of dismissing the fæces and excrements from the bowels, but these rumors that are checked or stopped in their passage through the Skin, Kidneys, Lungs, and all excreting and secreting functions; for if these excrementatious secretions belonging to the skin, liver, lungs, kidneys, are interrupted in their escape, they become products of decay and decomposition, and must be purged from the living body through their proper channels; hence the purgative qualities of Radway's Pills extend to the secretions of the Skin, Kidneys, Diver, &c.; whereas not one of the advertised Pills claim to act beyond the bowels.

How to take Radway's Pills.
Their daily use.

In doses of one or two pills, by all persons of a full habit of body, subject to giddiness, rush of blood to the head, palpitation of the heart, and all those subject to fits, will not only keep the blood from becoming congested or clogged up in the blood vessels, but will equalise its circulation, and prevent sudden attacks of apoplexy, disease of the heart, congestion. Persons who will take one of these Pills every day will not suffer from Head-aches, Dizziness, Hysterics, Fainting Spells, Pains around the Heart, and a hundred other disagreeable symptoms.

DYSPEPSIA.

One of Radway's Pills, two or three hours before dinner, taken daily, will keep the system free from Dyspepsia, Constipation, Costiveness, &c. &c.

Bear in Mind,

Radway's Pills are the only purgative that will secure an alterative, diuretic, sudorific, aperiant, and tonic influence.

They are the only vegetable substitutes for Calomel or Mercury.

They promote the secretion of bile, and withdraw it from the circulation.

They assist, through their nutritous properties, the chyme and chyle, and gastric juices in the process of digestion.

They are elegantly coated with Gum, perfectly tasteless, and free from smell.

THE CITY PRISON.

PROTEST OF THE MUNICIPALITY.

The Black-hole of Calcutta is familiar to the students of history, but it is not generally known to our readers in the exterior world that the prison of Buenos Ayres is a 'horror of horrors' to use the phrase of the new Lord Mayor. Fancy 400 human beings crowded into a space which is no greater than that occupied by an ordinary family of five or six persons. The smell emitted from the dungeons is horrible, and we are informed that Dr. Esteves Sagui and his colleagues came away sickened and disgusted.

It is no false sentimentality to enlist public sympathy for the wretches who are suffering in such a place, some of them for years; we hear of one man who has been an inmate of those dungeons for 18 years. There is a medium between the ill-advised clemency of abolishing capital punishment, and the reckless indifference which abandons criminals of all grades of guilt indiscriminately to the unhealthy and inhuman treatment now disclosed. The new Lord Mayor has wisely suggested the formation of a committee to visit the prisons periodically, and see that two essential conditions are adhered to—1st that sufficient room and ventilation be allowed the inmates; 2ndly that security be looked to in all the cells and departments.

Nothing can be more appropriate than the remark of Dr. Saguí that matters of this kind have too long been treated in an under-hand manner, spoken in a whisper, when in reality they should be preached to the public openly, to shew the danger which threatens the health of the city, and where the blame should lie. Our new Lord Mayor has taken the bull by the horns, and we expect very salutary results from his energy. Only yesterday Congress was fined for throwing dirty water into the streets; to-day the Provincial Government is similarly brought to justice, and with this example we hope soon to see a cleansing of the Augean Stables.

The note of the Municipality is as follows:—

Buenos Ayres, Sept 23.

To the Minister of Government.

As President of the Municipality I have to call your attention to matters of the gravest importance, and which will not admit of delay. I am filled with grief and indignation to see the condition of the public prison, beneath saloons hung with silk and richly carpetted, furnished in a style of imperial luxury.

Yesterday at 4 p.m. it chanced that the Alcaide came to see me about food for the prisoners, while I was sitting in committee with the other members of the board, and as the clerks had all gone home I determined to go with Messrs. Aldao and Sassemberg to see for ourselves the state of the place.

Horror of horrors—it was worse than we can imagine Hell to be! There were 400 human beings packed in a narrow space which could hardly accommodate half the number.

In an ill-ventilated cell, 9 x 4 varas, there were 29 prisoners; in another 11 x 5½ there were 41; in another 6½ x 5½ there were 25; then came a number of still more wretched dungeons 5½ x 5½, each holding 8 or more. In the ill-ventilated infirmary 12 x 3½, with ceilings 10 ft. high, we found a dozen sick. In the long halls, called 'Crujias,' the prisoners were packed like so many head of cattle in the Corrales, with this difference that the cattle have at least fresh air all around them. The place is indeed kept as clean as possible, a sewer conducting all the dirty water to the river, but the smell and noxious gases from the crowded apartments is most offensive.

It is a sarcasm for the Municipality to dictate laws about the ventilation &c, of private houses and tenements, when the public buildings are kept in such a state, to the outrage of all rules of health. The public prison of B. Ayres is a monstrous disgrace to the city.

It may be compared to a three-headed Cerberus, for the Government has charge of the place and its guard, the Municipality provides the means for its support, and the Tribunal of Justice disposes of the wretched inmates who read over the portals that line of Dante

'Oh voi che entrate—Lasciate ogni speranza!'

Under the circumstances it is impossible for the Municipality to do anything, and we should much prefer to be relieved of all responsibility in the matter. Meantime we could compel whatever authority takes entire charge of the prison to observe those sanitary regulations which are necessary for the health of the city.

Let the Government, the Judges, the public, go in person and see what a menace to public health the prison is, from which at any moment may break forth some violent pestilence over the whole city.

Hitherto it seems people fancied all epidemics were imported from abroad, but after the terrible lessons we have received it ought to convince the most incredulous that the present abominable state of the prison is a prolific field for the development of plague and sickness,

Perhaps you will say I ought to mention these things *in a whisper* to your own ear, as a great secret, but I speak out boldly so that even the deaf may hear me! The Municipality must not be saddled with the faults of other people. If we had power in the matter we should have removed yesterday two-thirds of the prisoners and sent them out to the Recoleta Convent.

If I had time to do so I would at once get up a Humane Society to visit the prisons. As yet we know not how the other prisons are, but the spectacle afforded yesterday obliges the Municipality to call the serious attention of Government to the matter.

MIGUEL ESTEVES SEGUI.
B. Llorente, Sec.

THE IMPORT DUTIES.

Mr. E. N. Paz has published in pamphlet form a very elaborate treatise on the detrimental influence of a high tariff on our imports. This useful book reflects much credit on the author, and shows great research. In the year 1865 indispensable articles of consumption paid an import duty of 15 per cent., besides 2½ per cent. additional duty. Now, these same articles pay, and have paid since 1870, 25 per cent. import duty, and 5 per cent. additional duty, which makes our import duties 30 per cent., nearly double what we paid a few years ago. The valuation of our imports is to-day fully 25 to 30 per cent higher than in 1865, which in reality raises our import tax now to 39 per cent., against 17½ per cent in 1865.

The Customs returns show the effect of these high duties:—

In 1864 the import duties were 15 per cent., and 2½ additional.

In 1866 these duties were raised to 18 per cent., and remained so until 1867, when the additional duties were raised to 5 per cent., which raised the duties to 23 per cent., until 1870, when the ordinary duties were raised on the chief articles of consumption to 25 per cent., with 5 per cent additional duties, that is to say, 30 per cent. The Custom House returns show that neither the consumption has increased of late years with the march of the country, nor the receipts at the Custom House augmented to the extent looked for; and although it cannot be said that either the consumption or Customs receipts have fallen off, still, as they show no sound, healthy increase, in the judgment of the economist they are going backwards.

Let us now look at the official returns of our imports, limiting our remarks to the 'comestible' trade, which is the chief import trade of this country, and as we have no returns from the other Custom Houses, we must measure by the Custom House of B. Ayres.

In 1864 the value of imports was $f.21,000,000, which paid 17½ per cent. duty, and on a low valuation.

In 1865 the imports reached $f.27,100,000, when the influence of the low valuation was felt.

In 1866 the import tax was raised to 18, but the imports only increased to 32 millions, being only 5,000,000 over the previous year, which shows that the increased tariff checked the import trade; as, owing to the greatly increased population, trade, &c., it was to be expected that the import trade would have at least risen ten millions that year.

In 1867 the additional duties were raised to 5 per cent., thus making our import duties 23½ per cent., and at the same time our tariff of valuations was greatly raised because the Government yielded to the power of Congress. But the real barometer of trade consumption proved that the tax was excessive and a check on trade. The official value of imports this year was only 33,372,000 pats.; thus showing that the imports under a 17½ per cent. tax increased 6 millions whilst in 1867, under the 23 per cent. tax, the increase was only 1,372,000 pats.

In 1868 the imports reached 38,641,000 which showed a returning vitality, the increase on the previous year being 5,264,000.

In 1869 the high duties again turned the scale; the valuations had been again raised. It was in this year that the present high tariff was passed, and our financiers looked for the meeting of a heavy deficit by increased taxation. The high taxes then passed have held until now, when it is proposed to increase the import tax to 30 per cent. 'ad valorem!!!' and this is not enough, for the increased valuations of the tariff this year have literally raised the import tax to 39 per cent.

In 1869 all import houses knowing of the impending rise imported heavily this year, so as to escape the tax, and yet the total imports of the year only reached 37,541,000, being 1,100,000 pats. lower than the previous year, and only 5 millions over the returns of three years previously. This sudden fall in imports shows a fall-off in the consumption and the grinding influence of the tax.

But the year 1870 came to teach us a still stronger lesson. The new 30 per cent. tax came in force, and also the high valuations. A box of brandy was now appraised at 4 pats. that in 1865 was valued at 1.75, a box of oil at 4 pats. when formerly only 2.50; beer 1.50 per doz., previously 1.15: Paraguayan tobacco at 5 pats. per ar., formerly 2.50; yerba Parnagua at 1.75 when formerly it was only 1.25—and so on with almost every article that in 1865 paid 17½ per cent. duties now pays 30 per cent.

What was the result, notwithstanding the termination of the late Paraguayan war, and the flourishing state of the Argentine Republic? The total imports of the year only reached 37,379,000, being 1,162,000 under that of the year 1868,—161,000 under that of the previous year, 1869!!!

The returns for 1870 are not yet published, but from the Minister's estimate of 45,624,000 we gather the following:—

Rosario Custom	house	imports	.....	6,680,000
Mendoza	do	do	.....	447,000
San Juan	do	do	.....	468,000
Corrientes	do	do	.....	600,000
Entre Rios.	do	do	.....	800,000
Salta & Jujuy	do	do	.....	250,000
B. Ayres	do	do	.....	37,379,000
				$f45 624,000

Thus we find that after seven long years, during which period the Republic has increased 300,000 in population, the industrial resources 50 per cent., and the trade of the country 60 per c., our railway lines stretched to 700 miles actually running and 2000 miles in construction, our telegraph wires running 2000 miles over hill and dale besides thousands of miles in construction, our exports, spite of the fall in the European markets, greatly increased—notwithstanding all this, the consumption of foreign imports has almost stood stationary; for our imports in 1865, at the then low valuation, reached 32,000,000, fully equal to 37,379,000 at the high valuation of to-day.

If this teaches progress, then we care nothing for the lesson.

And here we must pause. This useful little pamphlet should be in the hands of all. The subject is one of the highest interest to the public, and we return our best thanks to Mr. Paz for devoting to the subject so much time and study. Mayhap his views will yet do good; the seed is sown broadcast; but in such matters it usually falls on arid soil, withered by the grasping policy of Argentine statesmen, who have nearly milked the River Plate cow dry.

WANTED, A REGISTRY OFFICE.

One of the most important questions in this country is the proper registering of property. The present system is very defective, giving rise to numberless lawsuits and any amount of chicanery and fraud.

We are in a much worse condition now than when under the domination of the Spaniards, because the system then dovetailed into the despotic and central systems of government under the old regime. But with the adoption of free institutions, the introduction of many phases of civilization consequent on throwing open the country to all comers, the antiquated system of 'escribanos,' or notaries public, is quite as much out of place as a professorship of Budhism in a modern university.

If you want to assure yourself of the legality of a title, you have now to wander through the dirty archives of a dozen 'escribanias,' in which the probability is the said title has assumed so many protean forms that its identity has entirely disappeared.

In the daily presence of the vast amount of trouble and expense attending a great number of sales of land, it is surprising that no one of our rising and distinguished statesmen—Oroño, Rawson, Quintana, and others—has had the courage to take the bull by the horns, and relieve our Legislature of an incubus so ugly as well as pernicious.

Is it possible that the Rawsons, the Mitres, the Velez Sarsfields, the Avellanedas, have no knowledge of the simple and adequate system used in England, the United States, Canada, and Australia? The Registrar in those countries is merely an automaton, but his books are clearer and are worth more than all the barbarous 'doy fés' of all the 'escribanos' in a Latin country.

The country is partitioned out into registrar districts, the head being generally a county town. Supposing that Rosario is termed the county town, then here we should have one registrar office, a fire-proof building just large enough to contain the books—large volumes, strongly bound, and in proper series. In cases in which no difficulty in respect to title exists, the seller and buyer, either one or the other, can draw out the deed on printed forms, and sign it in presence of witnesses. The purchaser takes it to the Registrar, who notes on it the hour and minute of its delivery. He copies it word for word in one of his great books, and returns the original to the owner. As the Registrar is a sworn Government officer, the fees are nominal. In case of intricate titles, a lawyer is employed to draw out the document; but the difficulties are very slight, for the antecedents of the property are all to be found in one place and in one book, and no sale or hypothecation is valid unless it be found in that book.

Compare this simple, expeditious, and economical system with the cumbrous, complicated system in use here, where the 'doy fés' of 'escribanos' meet you at every step of an investigation, apparently with no other object than to worry your head and empty your purse.

Who is the patriotic Argentine who will give us Registrar Offices for lands, and trials in open court, with verbal evidence, even were it without a jury? 'Procuradores' and 'escribanos' must then take to some other means of living, it is true, in such a case, but I do not think they would be much pitied.

LATEST FROM MONTEVIDEO.

(From our own Correspondent.)

M.Video, 23rd Sept., 1871.

In my last, dated 24th inst., I told you that every one of the would be political economists of this "happy land," where every one thinks himself capable of teaching finances, was preparing his pet project, and so there has been during the past week nothing but a series of projects, one after another—some more absurd than others, published every day in our papers; one project from the fertile brain of the Deputy Don Bernabé Herrera y Obes, brought forward under the protective influence of our Minister of Finance Don Duncan Stewart, went in as usual for large emissions of paper money of impossible conversion, and terribly frightened the commercial part of our Montevidean population, so much so that gold went again up to 15¾, but we ourselves knowing something of what passes behind the scenes everywhere (as a correspondent must do), felt convinced that this new attempt to swindle the public would inevitably fail, and that this project must fall through, thus confirming the assurances we gave in our last to your readers, "that for the present we shall have no fresh emission of inconvertible paper money, or of notes with a forced currency"—convinced of this, when all were frightened we exclaimed, amid this shower of projects, as Macbeth—

Hang out our banners on the outward walls;
The cry is still—they come. Our castle's strength
Will laugh a siege to scorn.

It would now appear that the champions of government greenbacks have at last discovered that they have again lost the game, and have for the present suspended their attempts in that direction, as we see that the Minister of Finance has advertised for tenders for the Extraordinary loan authorised by the law of 17th July, and report says that there are parties ready to take up the whole on satisfactory terms.

On Friday last Montevideo witnessed a terrible spectacle—the execution of the four murderers of the Italian Doctor Feliceangeli. Although ourselves opposed to capital punishment as an institution, we cannot in this case see what other course would have harmonised with the demands of Justice, as there is no Penitentiary in the country nor is there any place where characters like these which are unfit to mingle with peaceful beings can be safely guarded and society thus protected from their murderous instincts. This time at any rate we have freed ourselves of four bloodthirsty assassins, and we trust the example may be advantageous to the by far greater number still at liberty and walking our streets with perfect impunity, but we would wish that the judicial authorities, now that they are about it, should play the game out, and rid the country of a few more, though this of course would immediately meet with energetic opposition; the only wonder to us is that these four men were executed at all, instead of being made soldiers of the line. These four ruffians, who for money were ready to assist in making away with a man previously unknown to them, met their deaths with perfect calmness, and on their way out in a carriage to the place of execution smoked cigarettes and conversed with several parties passed on the way. As usual at such demoralising spectacles, an enormous crowd of people, said to have been over ten thousand in number, crowded the azoteas and all other places in the neighbourhood of the Plaza de Artola, where the execution took place, with a view to catch a glimpse of the death struggles of these four wretches; as usual there were also a good many females and children among the crowds of spectators; and as usual there were present numbers of the nimble fingered gentry, who relieved many persons of the contents of their pockets, while some even drew knives, daggers, &c. in threatening attitude to others near them, as if about to commit the very crime for which the four men tied to the stakes were being shot!! The guardians of the public peace likewise exhibited their customary prowess, cutting with their 'machetes,' pinking a few with their bayonets and riding their horses over others—all this combined with the lively strains of various military bands of music forming, you will readily conceive, an exhibition highly edifying to a people that still supports the civilised amusements of the Bull-Ring and the Cock Pit.

To-morrow I shall again write to you at greater length.

OTHELLO.

ROSARIO.

[From our own Correspondent.]

I suppose you will be surprised to see by the papers that the Gas-works of Rosario are to be sold by auction. According to what I can find out, it seems that a Mr. Arteaga, now dead, procured the privilege from Government of supplying gas to the town of Rosario. He was assisted by the Maua Bank, which advanced him a large amount to enable him to conclude the works, the bank taking the establishment as guarantee. In the meantime Mr. Arteaga sells the Gas-works to another party, and soon after takes his departure to try his fortune in another world.

After some months of litigation, it appears that Law inclines itself to Justice, and the Maua Bank has procured an order for the sale of the property. The dead man's representatives have, however, published a long protest.

The iron bridge over the River Carcaraña, on the road to Santa Fe, has been received by the Government Inspector, and is said to be well constructed. A correspondent of one of our papers gives a glowing account of the ceremony, and how 150 cattle were gallantly driven over the bridge by Mr. Jose Maria Cullen, mounted on a white charger; and how cheers were given for the President, and for Minister Sarsfield and the country at large. What a poor idea we must have of the exertions of a Ministry, when the finishing of one bridge is the subject of such enthusiasm! I say that it is most disgraceful that the Carcaraña has not at this moment half a dozen bridges spanning it at different points. It is disgraceful that hundreds of other streams and creeks have remained to the present day without bridges.

But we are just like a lot of children in this country, and the native papers are the active exponents of childishness. It is seldom we see anything in them except absurd and unmerited praises of some one or of something, or equally ridiculous and unfounded abuse.

Well, we will hail with becoming thankfulness Mr. Velez Sarsfield's first public work in the province of Santa Fe—a bridge; and will serenely trust that he will not some fine day take a dislike to the colony of Jesus Maria [ye gods! what a name for a colony!]. If he does, he will certainly order this bridge to be destroyed; for apparently there is no power in this country to restrain the old gentleman's destructive and mischievous propensities.

The day of the opening of the Exhibition is approaching, and I am sorry to see so little enthusiasm. I am very much afraid that comparatively few people will attend. The fact is too apparent that in this country there exists no public spirit except for revolutions. The press here and everywhere is grumbling that Government does not give a free pass to every citizen. What a palpable evidence of the small progress Republican ideas are making. As I said before, the people are not out of their swaddling clothes, and if they have to wipe their noses they apply to Government to do it for them.

It was a mistake locating the Exhibition in Cordoba. It should have been in Buenos Ayres or Rosario.

The engineer of the Municipality is occupied in the following works:—

Delineation of the two boulevards that will enclose the present city.

A direct street to the Cemetery.

A street leading to the growing suburb of San Fraunsquito.

Another broad street on the road to Santa Fé, as far as the Arroyo Ludueña.

Formation of the public square round the central market, and which is to be planted with trees.

Two more 'bajadas' opened to the river.

There are two companies with contracts for paving.

Should the Municipality carry out all these undertakings, the corporation will deserve to have a niche in the Temple of Fame.

French immigrants from Alsace and Lorraine commence to arrive; but the larger proportion are single men, as appears from the data of the Immigration Commission. This seems to indicate that families in the conquered region will probably reconcile themselves to German rule.

The drought still continues, and inspires very serious apprehension. Things can hardly be worse for the sheepfarmers in the Department of Rosario. The hard grass land of the Totora district, north of Cañada de Gomez, where a thriving English colony exists, is still in good condition, and our countrymen are making a good deal of money.

The Railway Company is busy erecting handsome stations along the line. They are constructed of machine made bricks and painted work. There are already six finished.

I have seen some specimens of wheat grown in the gardens of the Exhibition, and sent here by Mr. Zimmermann. They are all foreign, and appear to suit this climate. Mr. Zimmermann passed through Rosario the other day on his way to Buenos Ayres. He is expected back immediately; he is wanted in Cordoba. To him and Mr. Olivera we shall owe the Exhibition.

Yours &c.,
LEO.

The Municipality of Cordoba have voted 12,000 patacons from a not overflowing Treasury to meet the expenses of the reception of President Sarmiento at the opening of the Exhibition.

Commercial Considerations.

(Continuation.)

As for the mineral wealth of Bolivia it surpasses the wildest tales of the Arabian Nights; but, like everything else, the mining science has fallen far out of sight of all modern improvements. It is supposed that there is more silver in the refuse (rodados) of the mines of Potosi than has ever been taken out of them. The richest lodes and the largest mines are now under water.*a* More than ten thousand mines have been worked and abandoned for the same reason, among which are five hundred of gold in Yungas,*b* all because pumping and other machinery necessary to the elaboration of the ores cannot be carried on muleback across the Andes. Ischudi says, that considering the vast losses which the mine owners sustain by the waste of quicksilver and the defective mode of refining, it may be fairly inferred that their profits are about one-third less than they would be under a better management.*c* And yet even thus the product of the mines of Potosi from 1545 to 1783, according to the statement which the treasurer Cierra sent to the King in June, 1784, amounted to $850,518,893, and during the five years from 1800 to 1806 they produced $21,186,400, whilst the same period from 1840 to 1846 only gave $9,789,640.

After the independence of the Spanish American colonies was secured, a knowledge of these fabulous metals caused an excitement in England, only surpassed in history by the financial extravagances of the celebrated John Law in France. Twenty-five mining companies were founded in London in 1825,*d* which all failed, because there were no roads or means of making them, and the political condition of the countries where they lay was not yet such as to protect foreign capital. On account of the failure of these premature attempts, British capital was long withdrawn from these countries, and they sank into a deeper night than they had ever known before.

But now all circumstances smile on this attempt to open up Bolivia. The Argentine rivers are free to their highest well head, for no Paraguayan tyrant will ever close them again. Railways and steamers are invented, and daily increasing in our Valley, through foreign capital and native industry; and what are the few millions necessary to complete our plan to the vast results to be surely derived from it in rewards and blessings upon present and future generations? for all the silver and gold of Bolivia are not to compare with the undeveloped resources of that beautiful garden. The wealth, strength, and greatness of a nation depend upon a well-cultivated soil and people, aided by commerce and manufactures. Veins of gold and silver run out; without other industry, poverty follows, particularly when the people have been schooled in poetry, Latin grammar, and civil law.*e*

Thus it is that Bolivia bears the great stain in modern times of having debased her silver coinage. Notwithstanding her mountains of silver, and her largely concentrated population, she has mixed it with more than 20 per cent. of copper!

By the statistics of 1846, the last of which we have any knowledge, the commerce between Bolivia and the Argentine Republic was $260,000, of which only $14,000 were in the products of Bolivia *f*. But at the latter end of the last century the exportation from Cochabamba alone for Buenos Ayres was $191,000*f*. *i*. Now it is nothing.

Foreign commerce in the same year (1846) was	$f 8,929,296
Interior idem	45,055,292 *g*

It is not necessary for your memorialist to touch at any length upon the benefits to accrue to the Argentine Republic in a commercial sense by assisting Bolivia to intercourse with the world. The crudest notions of geography will do that for us. Buenos Ayres, Rosario, Corrientes and the Villa Occidental, are the natural ports of entry and deposit for the wants, as well as for the productions of Bolivia. The carrying trade by river of more than a thousand miles will leave wealth in every port of transit; an interchange of population will occur to a great degree, and brotherhood of interests, and consequently of peaceful emulation, grow up. In exchange for many of her productions of first necessity, we would send to her large quantities of cattle, of which she is most destitute, and with which we would soon people the lands of the Villa Occidental, and those along the railway. *h*

The inhabitants of the Bolivian mountains at present draw their supplies of horses and mules from the Argentine provinces of Jujui, Salta and Tucuman; as they formerly did in the time of the colonies from Paraguay. But even so, the supply is limited indeed, and the prices high from want of interchange of products over good roads. At present there is only one horse in Bolivia for each 26 inhabitants; one mule for each 90, and one donkey for each 24 *j*. This trade alone would soon pay for the railroad, to say nothing of the yerba and the timber of the Chaco and Paraguay, so absolutely necessary in the mining districts. It is on record that a single stick fit to be employed in the mines

of Potosi, brought from Tucuman, cost more than $f. 1,000 *k.*, and it is also on record that Bolivian commerce has entirely disappeared from the chart of British exports. *l.*

EDITOR'S TABLE.

The new Lord Mayor, Dr. Don Esteves Sagui, is commencing his career with the vigor and clean sweep to be expected from a new broom. We trust he will excuse the apparent irreverence of the comparison; but we use it for the sole purpose of expressing our admiration of the energy with which he is setting about the herculean task of reforming the city administration. In another column we publish Dr. Sagui's 'caution' to the Provincial Government anent city affairs in general and the disgraceful state of the Prison in particular. The Lord Mayor has vividly depicted for the Buenos Ayrean public the horrors of the principal den in which criminals are confined. The Bastille, the dungeons of the Inquisition and the Black Hole of Calcutta are concentrated in one foul spot of the South American Athens. Dr. Sagui admits that, had he the power, he would have cleared the prison at once of its wretched inmates, and gives one of the worst abuses of the day a home thrust by asking the Government in trumpet tones whether it would not have preferred to have the shocking tale he unfolds told with bated breath, lest the very walls might hear it. The note of Dr. Sagui to the Provincial Government inaugurates a new era in the Municipal Administration of Buenos Ayres, and should awaken the citizens from the Rip van Winkle sleep they have so long been buried in, show them the giant work of reform that lies before their representatives in the Council, and inspire the latter to follow their competent and determined leader.

A morning colleague remarks the alarming increase in the popularity of the stiletto amongst the too numerous class of persons accustomed to go about secretly armed, either for self-defence or agression. This weapon is much more to be dreaded than the revolver as a secret arm; it does its deadly work in broils and midnight rows without a noise that brings the police on the criminal, hence, we suppose, its increasing popularity. There are numerous cases of bad stiletto wounds now in the hospitals.

Letters from Yaguaron announce the arrival of General Osorio at that place. Some of the Blanco leaders about there are trying to persuade the general to make another attempt to bring about peace with the government, but it is believed the gallant officer has refused to have anything more to do with the matter.

The man who played the part of Calcraft the other day in Montevideo, at the execution of Dr. Feliceangeli's murderers, was himself convicted and sentenced to death for the assassination of Commissary Artegas some months ago, but the capital sentence was commuted, the murdered functionary's family joining in the appeal for mercy. One of the four men executed was the murderer of Signor Chaperon, Italian Consul in this city some time ago. Mr. Van der Wyde, the well-known photographer of Montevideo, has sent us some excellent photographs of the criminals, and the scene at the execution in the Plaza Artola; he has sold over 7,000 of them in the sister city.

We hear of a colleague in the States who received the following letter from a country reader anxious to discontinue his subscription:—"I think folks ottent to spend their munny for paypar, mi dadda didn't, and everybody sed he was the intelligentest man in the country, and had the smartest family of boize that ever dugged taters."

The Cordoba papers announce that a house in that city is being elegantly fitted up and furnished for the reception of President Sarmiento and suite on the occasion of his visit to the Exhibition.

The Coliseum continues the nightly resort of a fashionable crowd. Each evening the attendance seems to increase, and 'the hair breath scapes' and 'moving accidents' to the skaters to be more keenly relished. The ladies' morning class is apparently working wonders, the fair pupils making great progress and very graceful running at night. It is very interesting to note the rapidity with which many of the skaters have become tolerably proficient. When the hall first opened a fortnight ago the few who ventured on the 'rollers,' with half a dozen exceptions, hobbled about the room in worse than lame-duck fashion—now these are amongst the best performers. Mr. Huntley, we are happy to observe, watches over the preservation of order zealously and effectively, and there is no pleasanter way of passing an evening than by a visit to this entertainment.

The Italian papers announce that King Victor Emmanuel had a narrow escape of being killed while hunting recently in the wood of Valsavaranche, in the Valley of Aosta. He was suddenly attacked by two wild boars, one of which ripped open, with its tusk, the stomach of the King's horse. His Majesty was saved by his suite, but received a slight wound in the thigh.

The Montevidean Government has received a bona fide proposal for its four million loan. Messrs. Herrera and Eastman have offered to take it at 80, 5 per cent. commission, and interest to run from the 1st of July next. The proposal, which is generally considered favourable, has been submitted to the Chambers.

Most of the leading Brazilians in town called yesterday at the Hotel de la Paix to pay their respects to their distinguished countryman Baron de Cotegibe. H.E. presented his credentials to President Sarmiento in the afternoon, in private audience.

There are 2000 navvies now employed on the Central Railway of Uruguay in extending the line. Last month it carried 29,000 passengers, and gave a net profit of £1,600. Things really seem a little on the mend with this hitherto unfortunate railway.

The National Treasury has debited the Cordoba Govdrnment with 600 Bolivian dollars, the value of some rockets and other fireworks which the Cordoba authorities 'borrowed' from the Exhibition Commissioners on the 25th of May last, to celebrate that glorious anniversary. The Commissioners could not get back their rockets, so wrote to headquarters where the account has been squared as above.

One of the notable characters in the Jordan rebellion in Entre Rios, El Chumbeado, has just died of paralysis, contracted through the hardships of that memorable war.

Heavy rain fell in some parts of the province of Santa Fé on Thursday and Friday last, but the refreshing torrent was not as general as could be wished. From Entre Rios the accounts of the 'seca' are worse and worse, cattle dying by hundreds, and the same fate menacing all the herds in the province unless rain fall within a short time.

The appearance of the foreign exchange market is attracting the attention of capitalists, and we intend to deal with the subject in an early issue. The aspect of the commercial and monetary horizon is in general very encouraging, the only black spot in the prospects of the country being the drought which, if prolonged, will work terrible mischief and upset all calculations based on present encouraging signs.

The hospital and new clock at Mercedes were both duly inaugurated on Sunday last. We are informed that the religious ceremonies incidental to the 24th of September were unusually solemn and magnificent. The very Rev. Dr. Aneiros, Bishop of Aulon, "in partibus" presiding.

Rossi the tragedian, was presented with a splendid solid silver inkstand by his countrymen in Montevideo on the occasion of his benefit, in Hamlet, last week at the Solis Theatre; he will be here next week.

The Gironde obtained free pratique yesterday, and the remainder of her passengers landed in the afternoon. It will be necessary for the Port authorities to remember that the 'knowing ones' amongst them landed at Montevideo, and came up here in the river steamers, thus 'dodging' our vaunted quarantine regulations. The device will be repeated on the arrival of every packet if some measures are not taken to nip the practice in the bud.

A subscriber called on us yesterday to report a trait of vigor on the part of the new Municipality, remarking that, as we had often been compelled to 'pitch into' that body, justice demands that credit be given it when it is due. On Friday an 'algibe' which serves three houses in the most fashionable part of Calle Florida was discovered to be tainted by some noxious substance getting into it. On Saturday morning the Municipal officers were applied to. The new Lord Mayor, the Numa Pompilius of Buenos Ayres, was at his post. A wave of his hand sent the Municipal Engineer and Health Inspector to the 'algibe.' These gentlemen, when they got there, shook their heads, condemned the water, and a few hours afterwards there was not a drop of it left in the 'algibe' by the numerous gang of peons set to work to empty and clean it. This is the proper way to look after public health. We are not at all surprised, however, at the vigor the new City Magistrate is displaying; he comes of a good Irish stock—the Magees of Antrim. Lord Mayor Michael Magee is the right man in the right place.

Yesterday we had the pleasure of inspecting one of the finest sheep ever reared in this country, as regards meat, fat, and skin. The sheep was, as a matter of course, of English breed, known as Lincoln, and reared on Messrs. Casares' estancia at Cannelas. The size of the animal astonished many of those who inspected it. Mr. Casares had it killed for meat, and hung up in the patio of his house, to show his friends the kind of mutton raised on his estancia. The hind quarter, without the least exaggeration, must certainly weigh alone more than a common mestiza sheep of the camp. The fat on the quarter measured three inches thick, whilst the kidney fat should be seen to be judged of. The wool is of the long staple so well known in English sheep, and of a coarse description. The skin appears to weigh double that of an ordinary capon. It was estimated by parties present that the fat alone of this magnificent animal will weigh from 30 to 32 lbs. The carcase weighs 130 pounds without the skin or the inside. It is much to be regretted that we have so few of this Lincoln breed in the country. Estancieros should call at No. 2 Balcarce and inspect it to-day. We compliment Messrs. Casares on their triumph in being the first in this country to bring such mutton to town. Had we a vote for the new President or new Governor we should certainly give it to such men, who spare no means to advance the real interests of Buenos Ayres.

A Connecticut schoolboy has written a composition on the horse, in which he says it is an animal having four legs, 'one at each corner.'

The 'ultima hora' of the latest Montevideo papers to hand announce General Borges at Cerro Largo with 2800 men, the rebel army being within a few leagues of his outpost; intelligence of a battle may be expected to-day or to-morrow.

Amongst the 'dead letters' with valuable enclosures in the General Post Office, marked out to be burned, is one for a Mr. Frederick Taylor who had better look sharp if he wishes to 'save his stake.'

The English Post Office authorities have announced that the Pacific steamers will not henceforth take any mail bags from Buenos Ayres or Montevideo to Valparaiso, as there are no means available of recovering the British postage on such correspondence.

It is high time that the police should look after the thousands of dogs prowling about the streets. We know of several cases within the last fortnight of children, old gentlemen and young ladies being more or less bitten.

The Public Library has been reopened to the great satisfaction of a numerous class who were greatly inconvenienced while it remained closed. We understand that the new Librarian, Mr Quesada, intends to introduce many important reforms in the management of the institution.

Six new saladeros are about to be built at Zarate.

Letters from officers serving on the southern frontier represent the Indians as in a state of great irritation with the National Government on account of the non-fulfilment of the ration treaties lately entered into with them. The savages are said to be meditating a combined raid on the settlers in revenge for this neglect. Should such an attack be made, there is apparently nothing to prevent the Indians from marching inward as far as they like, as the different garrisons are without even one horse per man, whilst three are required to render each soldier efficient for frontier protection. Meanwhile the War Budget is reduced, and 'the service' gets little attention from the Horse Guards at B. Ayres.

President Batlle, of Banda Oriental, has been invited to assist at the opening of the Cordoba Exhibition, but it is feared H. E. will be prevented by weighty state reasons from attending.

It was said in town yesterday that the Blancos made another attack on Fray Bentos on Saturday last, but the little garrison showing fight, they withdrew.

ON 'CHANGE.

September 26, 1871.

Ounces	400
Sovereigns	122½
Patacons	25
National Bonds	71⅝

The Bond market ruled weaker to-day than yesterday. There was nothing sold for cash, nor for the end of the month. Business in Bonds seems to be at a complete stand-still. The only sale effected to-day was 10,000 Bonds at 71⅝ for October 15, but no buyers.

The Bonds of the Platense Loan were sold to-day at 90. This security seems the best to-day in this market. The receipts of the M. Videan Custom-house have been so large that the amorization for this quarter will amount to the splendid figure of 3 per cent. This debt is now a year created, and during that short time has risen 15 per cent. The duties at the Montevidean Custom-house appropriated to the service of this loan amount to $136,543 32 from the 1st of July to the 23rd of Sept. This security is mainly held in this market, and as it is a 12 per cent. per annum, and the Bonds in sterling, there can be little doubt it will soon be at par.

The exchange market has assumed an unlooked-for aspect. Bills were passed yesterday at 50½, and to-day at 50½, 50⅝, and 50¾. It was even said that bills were done at 51. The fact is that there are few takers, and the rate ruling so high at this moment, when there is a lull in the export trade, has induced some of our first houses to send to Europe for specie. Amongst some of the most experienced brokers it is said that the probabilities are that exchange will in January be lower than at present.

Discount brokers reports bills done to-day at 6½ and 7 per cent. per annum. The banks are doing very little owing to the very few applications for money at present.

The telegram from Montevideo to-day gave the following—

Garonne from Valparaiso arrived. Hector from Nicaragua. Paper 14¾. Exchange 52½. 3,000 American hides at 68½. The wools of three estancias just sold on contract at 40 reales gold. French war steamer Bellona arrived. Sovereigns ⅝ premium 12,000 Entre Rios hides at 71½. 8,000 arr. wool from Messrs. Wendelstadter's estancia sold at 40 gold.

Diana chartered to load bone ash for orders at 40s.

Talauver do, bones and bone ash for orders for £1,200.

Mr. Rodriguez, the popular auctioneer, reports the house known as Mirador de Lezica, with one square of land, 140x190, sold for 445,000 m|c. The other land averaged 140,000 per square.

The Chilan steamer Galatea was looked for to-day, but up to the latest hour had not arrived.

The Baron de Cotejibe presented his credentials to-day at the Government House. H. E will leave shortly for Paraguay accompanied by Dr. Quintana, the Argentine Commissioner, when the question of limits will be definitely settled

Letters from the South camps to-day speak badly about the drought—everything dried up. The works of the Buenos Ayres Great Southern Railway Extension in the neighbourhood of Chascomus are now nearly finished.

Messrs. Forrest and Co. have one square league of camp near Bragado for sale, which they offer cheap.

The payments of Contribucion Directa tax are now heavy at the Government House. To-day Mr. Anchorena paid 292,000 m|c. contribucion tax for property within the Municipal bounds of this city.

Messrs. Silveyra and Co., of Moron, paid to-day for 5,000 fat capones 43, and for 1000 do., 46.

South Plaza, Sept. 25th and 26th.

Early this morning we visited the Plazas.

Great activity in sheepskins.

In fact, during five years of daily attendance, we never have seen sheepskins such as introduced at present from 'grasorias,' fine, clean, and in perfect condition.

Some from Messrs. Arias, Cambaceres, Esteves, Alais, Imas, Chapar and Bellog, and Senillosa, have attracted great attention, having obtained the highest prices.

General sales and prices paid.

Wool.

Some lots from distant partidos of common classes, were sold this morning at $72, 75, 78 ar.

It being an admitted fact, that "Money makes money," the object of LA BIENHECHORA could not be better, since it opens a vast Savings Bank for the surplus or savings of the Public, so that, by the proper employment of these small gains, a moderate capital, or even annuity, may be secured in a short time. By this means a provident, though helpless, family can husband their small means, and, in the end, attain a competency.

It being proved that the accumulation of interest is the most powerful means of augmenting the capital, THE BIENHECHORA DEL PLATA—an Argentine Company, whose only investments are in the country—holds out to Subscribers greater advantages than any other Institution, by reason of all its dealings being in the River Plate, where are current as large interests as in any part of the world.

THE BIENHECHORA DEL PLATA receives Deposits of from Five Patacones per Annum up to any amount in Weekly, Monthly, or Yearly Instalments.

SAVINGS BANK
BANK MAUA AND Co.
101--Cangallo--103
BUENOS AYRES.

The immense advantages of Accounts Current we now so generally felt and appreciated in the two great emporiums of the River Plate, Montevideo and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Mauá & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depositary for their savings.

The sums deposited in that very important institution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness, or old age, instead of spending them in the immoral gambling, in lotteries, and other frivolities.

The Bank of Mauá & Co. of this city, following the noble example of their firm in Montevideo, now offer the same facilities in this city, and has opened a Savings Bank at No. 103 Calle Cangallo from Nine a.m. till Three p.m. every day, for the reception of the savings of the classes already mentioned, Sundays an holidays excepted.

The Bank will deliver to each depositors a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interes will be calculated up to date.

The Bank of Mauá & Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Mauá & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighborhood.

Buenos Ayres, 2nd January, 1867.

P. P. MAUA & Co.,

M. A. DE FREITAS AMORIM.

CONDITIONS.

First—The Bank receives at interest any sum from Twenty-five Dollars currency or one Silver Dollar upwards.

Second—The interest allowed is six per cent. p. S) per annum, which is liquidated every six months.

Third—The depositors can at any time retire the whole or part of the money deposited.

Fourth—Once the money deposited exceeds Twenty-five thousand dollars currency, or one thousand dollars silver, the depositor, if he wishe can open an account current, according to the rules estabished by the Bank.

Fifth—In case the depositor loses his pass book it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.

" Alex. Sivori.
DIRECTOR-GENERAL:
Don Francisco E. Moreno.
INSPECTOR
Guillermo Schindler.

The Company Insures against Fire on very small Premiums. Every class of Buildings and Goods, whether private or industrial.

Goods in Customs Deposit may be likewise Insured.

Insurers in this Company contract no othe obligation than the payment of the stipulater Premium on the Policies, the Company being only responsible for such injuries as they may suffer from Fire.

Among the general conditions of the Policy, there is one of particular advantage to Mortgage Creditors.

The company offers the following Rewards:—
$f.40 To the first Hose ready to lend assistance.
$f.20 To the second do. do.
$f.20 To the first pipe of water.
$f.4 To each of the five succeeding pipes
Which run to the Fire of any Edifice or Property Insured in THE ESTRELLA, on making known his choice of the Reward, or a Certificate issued by the Police authorities to such as shall have assisted at the mishap.

The Company will also give a Reward of $f.4 to whoever shall present themselves at their Office, to give Notice of any Fire within the Municipal boundary.

POLICIES Issued, and all further particulars to be had, at the Head Office, No. 112½ FLORIDA—Up stairs—or at any of the Country Agents.

MARITIME DEPARTMENT.

By virtue of Decrees of the 2d of April and 9th of June last, of both Provincial and National Governments, and also having been duly registered in the Public Archives, this Company has been authorised to issue Maritime Policies, in accordance with the laws and regulations, in such case made and provided.

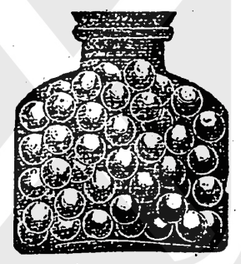
HEALTH AND HAPPINESS,
BY THE USE OF
BRISTOL'S SUGAR COATED VEGETABLE PILLS.

These Pills have justly acquired a widely extended reputation for their wonderful cures of severe cases of sickness—cases in which all other Medicines had failed, and which had been given up by Physicians as beyond help—such as confirmed and long-standing Liver Complaints, obstinate cases of Piles, Dropsy, &c. But while admitting their wonderful curative powers in difficult cases, we wish to call attention to their great value in the every-day diseases of life, such as Costiveness, for which they are a perfect specific; Headache relieved and cured by one dose; Indigestion always removed by them, and the stomach so toned and strengthened as to prevent a return. Bad Breath cannot exist when the stomach is cleansed by

BRISTOL'S SUGAR-COATED PILLS.



Purely Vegtable.

For Loss of Appetite they are the only sure remedy, as they never fail in carrying off the depraved bilious secretions that float in the stomach and destroy the healthy, natural craving for food. Sour Stomach, Heartburn, Flatulency, and all Derangements of the Digestive and excretory Organs, are promptly relieved and cured by them. The public should always bear in mind that Bristol's are the only Pills made of

Podophyllin and Leptandrin,

The only vegetable substances yet discovered that are really

Antibilious,

To the presence of which invaluable resinoids the extraordinary success of Bristol's Pills may in a great measure be ascribed. It is necessary, however, that the sick should always remember that in all diseases that have their origin in the blood.

BRISTOL'S SARSAPARILLA,

That best of blood purifiers, should be used with the Pills, the two Medicines being prepared expressly to act in harmony together. When this is done faithfully, we have no hesitation in saying that great relief, and, in most cases, a cure, can be guaranteed when the patient is not already beyond human help.

For general directions and table of doses, see the wrapper around each phial of Pills; but as different constitutions requirre different doses to produce the same effect, it is better that each person ascertain, by trial, the dose that suits their system, and make that dose, instead of following any general rule.

NOTICE TO SHIPOWNERS AND SHIPMASTERS.

The Marine Railway at Colonia being in working order, public attention is called to the following Tariff of Charges, a deduction of 25 per cent. having been made since the 1st of July, 1871:—

Sailing Vessels and Steamers of over one hundred [100] tons, English or American builder's measurement, will pay a rate of seventy-five (0.75) cents per ton gold, for being taken up. Each nominal horse power of engine in steamers, will be charged for as an additional ton of measurement.

Sailing Vessels or Steamers, whose entire registered tonnage and horse power of engine does not equal one hundred (100) tons, will pay the rate of one hundred [100] tons.

All cargo will pay one dollar, twelve and a-half (112½) cents in gold, per ton, for being taken up, and the regular rates for laying on.

For laying on the Rail way, from the hour the Vessel or Steamer is properly up, for each twenty-four (24) hours, fifty-six and a-quarter (56¼) cents. per ton, in gold, and any twenty-four (24) hours entered upon will be charged as a full day.

Vessels and Steamers must be provided with sufficient crew and lines while being moved into or out of the cradle.

Wrecked Vessels or Steamers, whose bottoms are broken, will not be taken at the regular rates, but must make an especial agreement with the Company's Agent at Colonia.

No charge will be made while laying on, for Sundays or stormy days, when no work can be done below the load line of the Vessel or steamer.

Railway Bills must be cashed, or acceptably provided for, before the Vessel or Steamer will be launched, and any detention of the Railway for the settlement of Bills will be charged at full rates.

A fine Machine Shop, Blacksmith Shop, and Brass Foundry connected with the Establishment. Machinists, Boiler-makers, and Ship-carpenters always on hand; and Shipowners will find it to their advantage to have all their work contracted for at the Dock.

The Company have immense Barracas ready for the storage of cargoes, with Wharves, Launches, &c.

The Company insures against loss or Damage by Fire Private Dwelling-Houses Goods Deposited in Specific Warehouses of Stone or Brick, &c., &c.; and also issues "Floating Policies," extending to the Custom-House and all or any of the Private and Bonded Stores

The whole advantages which can possibly be contemplated by those desiring to effect Fire Insurances, may be resolved into the following:

1st. Security
2nd. Honor and liberality on the part of the Company, in whose hands they place their interest; and
3d. The purchase of these advantages at a moderate rate.

It will be found that all these are presented by this Company to the Public in an eminent degree)

The Company's large Capital, under the immediate management of the Directors of this Establishment, affords perfect security to the Assured while it may confidently assert, from the Constitution of the Board of Direction, from the character of its present Members, and from the qualifications which will be deemed indispensable in their successors, that the highest honor and liberality will ever characterize all its transactions.

It has been the object of the Directors, in their minor arrangements, to afford every possible facility to those effecting Assurances with the Alliance, and the undersigned hold a Power of Attorney enabling them to settle at once any Losses that may occur from Firé, Lightning, or Explosions of Gas in Buildings, on or in which this Company has granted Assurances.

De una Estancia á 13 leguas de la ciudad, á 3 del pueblo de San Vicente y de la Estacion del Ferro-Carril del Sud. Terreno de 4,800 varas de frente por 5,000 de fondo—dividido en campo mensurado y amojonado con mojones de fierro. Una gran quinta con muchas maderas y buenas frutas. Potreros para encerrar 12,000 ovejas seguros y reguardados por la quinta. Corrales, chiqueros, poblaciones, galpones y puestos. Jagüeles calados y abundantes, y un hermoso alblon de alfalfa bien cercado. Como mil ovejas de muy buena calidad. Caballos de tiro y silla. Utiles del establecimiento y muebles.

El Domingo 15 de Octubre a las 12 del dia, en el Pueblo de San Vicente, en casa del rematador (Plaza Principal) donde estará la bandera al principio al remate de la Estancia mencionada arriba, perteneciente a D. Enriqueta Willis de Quado, conocida por 'Estancia Vieja de Fernandez' en un solo lote el campo, poblaciones, quintas potreros y corrales. Y el dia siguiente, 16 de Octubre, á la misma hora, se rematarán en el mismo establecimiento donde estará la bandera una majada de ovejas como de mil cabezas, chica y grande. Caballos de tiro y sillo, utiles de campo y muebles.

La venta de todo lo relacionado se hará indefectiblemente en los dias indicados, al mas alto precio y al contado; pues la dueña se haya enfermo y desea pronto retirarse á la ciudad con su familia. Nada de charla—se venderá precisamente, y se procederá á todo con la mayor formalidad y buena fé.

Los interesados tienen tiempo suficiente para ver el establecimiento á su gusto, y prepararse á la compra. Los que vengan de la ciudad encontraran todos los dias quien los conduzca en el Estacion San Vicente, dirigiendose al duello de las diligencias, D. Luis Marconi—y saliendo en el primer tren de la ciudad el dia del remate hallaran tambien en la misma estacion coches suficientes (banderas puntó) que los conducirán gratis al Pueblo de San Vicente, donde tambien estará preparado un escelente y abundante almuerzo, buen vino, &c,

Los titulos son antiguos y escelentes, y el rematador dará los demas informes que se le pidan en el Escritorio Victoria No. 100 (altos) y en su casa de San Vicente los dias de fiesta.

IMPORTANT SHEEP AUCTION,
BY
Peter Ebbeke & Co.

10,000 fine Mestiza Sheep al corte,

AT THE GENERAL RODRIGUEZ RAILWAY STATION.

On SUNDAY, Oct. 1st, at noon sharp, without the slighest reserve, will be sold by Auction to the highest bidder for cash, ten thousand prime Mestiza Sheep, in lots to suit purchasers.

The attention of Estancieros is called to this auction, it being a very excellent occasion for sheepfarmers to secure at a cheap rate sound good mestiza sheep, and with the double guarantee of making a good purchase, since the wool that is at present on the sheep's back will almost pay for the animals. There are no lambs in the flock, having been all sold previously, and consequently the flocks offered are for the most part large animals. The auction will take place at 3 squares from the station General Rodrigues, where the Auctioneer's flag will be seen.
